STAFF REPORT

Date: June 18, 2024

To: Governing Board

From: TRPA Staff

Subject: Proposed technical clarifications to the Phase 2 Housing Amendments in the Code of Ordinances

---

Summary and Staff Recommendation:

TRPA staff and the Advisory Planning Commission (APC) recommend Governing Board adoption of the proposed Code amendments, which are technical clarifications to the Phase 2 Housing Amendments the Governing Board adopted last December. The technical clarifications confirm the water quality requirements for deed-restricted workforce housing incentives, and the distribution of bonus units the agency holds in reserve for affordable, moderate income, and achievable workforce housing types.

Required Motions:

To approve the requested action, the Governing Board must make the following motions, based on this staff summary and the evidence in the record. An affirmative vote of at least four members of each State is required for these motions to pass.

1. A motion to approve the Required Findings as described in Attachment C, including a Finding of No Significant Effect, for adoption of the Code of Ordinance amendments as described in the staff summary; and
2. A motion to adopt Ordinance 2024-\_\_\_\_\_, amending Ordinance 87-9, as previously amended, to amend the Code of Ordinances as shown in Attachment B.

Advisory Planning Commission (APC) Action:

At its April 10, 2024, meeting, the APC recommended adoption of the Code of Ordinances amendments to the Governing Board.

Project Description/Background:

In December 2023, the TRPA Governing Board approved the Phase 2 Housing Amendments, a set of targeted changes to Lake Tahoe zoning regulations to incentivize deed-restricted affordable and workforce housing through more flexible development standards (i.e. height, coverage, density, and parking), while also benefiting water quality and reducing traffic and vehicle use. The Code amendments took effect on February 11, 2024. Staff now recommend the technical clarifications to ensure the Phase 2 Housing Amendments fully align with the Governing Board's intent, specifically with regard to water quality requirements for land coverage incentives, and the availability of bonus units for different types of affordable and workforce housing.

TRPA staff recommends the following amendments be made to the Code of Ordinances:

1. Technical clarifications to Code Sections 30.4.2.B.5.a and 30.4.2.B.6.a, making clear that participation in a stormwater collection and treatment system is a prerequisite for land coverage incentives, regardless of whether such a system is available for the project area. See Attachment B. The edit confirms that projects must be served by a stormwater collection and treatment system to qualify for incentives, thereby tying the Phase 2 Housing amendments to tangible water quality improvements.
2. Technical clarifications to Code Section 52.3.1 to fully align the Code's allocation of available residential bonus units with the Governing Board's intent. Prior to the Phase 2 Housing Amendments, Code Section 52.3.1 reserved 50% of the residential bonus units for affordable housing, and the other 50% for moderate income or achievable housing. In adopting the Phase 2 Housing Amendments, the Governing Board expressed a specific intent to limit achievable housing to 25% of the bonus units. The motion approved at the Board's hearing included Code language setting the bonus unit allocation for achievable housing at 25% and leaving affordable and moderate-income housing to draw from the remaining 75%. Although moderate income projects typically arise less often, the resulting Code language suggested the potential for moderate income projects to access a larger share of bonus units previously reserved exclusively for affordable projects. Staff believe the Board did not intend to eliminate the percentage of bonus units reserved exclusively for affordable housing. Accordingly, the proposed technical clarifications would confirm the availability of residential bonus units from the TRPA pool as follows:
  - 50% reserved exclusively for affordable housing;
  - 25% available for affordable or moderate income housing;
  - 25% available for affordable, moderate income, or achievable housing.

See Attachment B. The technical changes do not alter substantive provisions of the Code or result in any substantive change to the Code. The changes merely provide clarifications to align the Phase 2 Housing Amendments with the Board's intent.

Environmental Review:

The clarifying Code amendments have been reviewed in an Initial Environmental Checklist (IEC) pursuant to Chapter 3: *Environmental Documentation* of the TRPA Code of Ordinances and Article VI of the Rules of Procedure. The IEC found that the proposed amendments would not result in significant effects on the environment (see Attachment D).

Related to the previous IEC for the approved Phase 2 Housing Amendments, staff is providing an update to the bonus unit estimate. In response to stakeholder concerns, staff examined the number of bonus units available for Phase 2 incentives. The IEC for the Phase 2 Housing Amendments estimated approximately 946 bonus units remaining in TRPA pools under the 2012 Regional Plan. Sections of that IEC used that number to calculate potential changes in coverage, coverage transfers out of sensitive areas, and zero-car households. Following the approval of the Phase 2 Housing Amendments by the Governing Board, staff noted two discrepancies with the number of remaining bonus units cited in the IEC and in the Phase 2 staff report. First, the IEC did not include bonus unit pools held by local

jurisdictions that were provided for under the 2012 Regional Plan. Second, the approximate number of TRPA bonus units should have been 982, not 946.

As of June 2024, there are 982 bonus units remaining in the TRPA pool, and 317 remaining in the local jurisdiction pools that have not been constructed. Thus, instead of the estimate of 946 bonus units in the original IEC, the estimate should have been 1,299 (36 additional units in the TRPA pool, plus 317 in the local jurisdiction pools). The existing distribution requirements in Chapter 52 of the TRPA Code and the proposed amendments to the distribution listed above only apply to the TRPA bonus unit pool, not to the local jurisdiction pools.

As noted in the IEC for the Phase 2 Housing Amendments, the amendments modified the 2012 Regional Plan specific to buildout of the remaining residential bonus units. The Phase 2 Amendments did not alter overall development caps, growth control programs that were analyzed as part of the Regional Plan, or site-specific project requirements. The revised bonus unit estimate does not affect the original finding that the Phase 2 Amendments do not have a significant environmental impact, and therefore, a supplemental IEC is not required. In fact, there is a slightly greater beneficial impact to Land Use and Water Quality due to additional possible transfers of coverage out of sensitive lands from the total bonus unit count.

## Attachment B: Proposed Code Amendment Language

### 30.4.2.B.5 Affordable, Moderate, and Achievable Housing outside Centers

The maximum land coverage allowed on a parcel for multi-residential developments, mixed-use developments with a residential component as described in subsection 36.13, or accessory dwelling units, provided they are 100 percent deed-restricted affordable, moderate, or achievable and utilize bonus units, shall be limited to 70 percent of the project area that is located within Land Capability Districts 4 through 7, subject to the following standards:

- a. All runoff from the project area must be treated by a stormwater collection and treatment system ~~if a system is available for the project area~~. The stormwater collection and treatment system must meet applicable TRPA requirements; ~~and~~ a county or city, a utility, a community service or improvement district, or similar public entity with a sustainable funding source must assume perpetual responsibility for operation and maintenance; and the system must be permitted by the applicable state water quality agency or agencies (i.e., LRWQCB or NDEP depending on where it is located), as required to be included as a component of the TMDL pollutant load reduction measures credited to the entity or entities where the system is located. ~~or~~
- b. To transfer in coverage above the base allowable coverage, the project shall not construct any parking spaces above the parking minimums set by local or state standards, except when required to meet Americans with Disabilities Act requirements or to provide parking for bicycles.
- c. The project is exempt from the density maximums per section 31.4.1.A and subject to the parking standards specified in Section 34.4.1, unless an area plan specifies alternative standards per Section 13.5.3.I.C.1.
- d. The additional coverage for accessory dwelling units is limited to 1,200 square feet or 70 percent of the project area, whichever is less, that is located within Land Capability Districts 4 through 7 or on parcels that are buildable based on their IPES score. Additional land coverage shall be used only for the accessory dwelling unit, and includes decks and walkways associated with the accessory dwelling unit. This coverage shall not be used for parking.

### 30.4.2.B.6 Stormwater Collection and Treatment Systems for Affordable, Moderate, and Achievable Housing

Multi-residential developments, mixed-use developments with a residential component, as described in subsection 36.13, or accessory dwelling units, provided the units are 100 percent deed-restricted affordable, moderate, and achievable, utilize bonus units and are located in Land Capability Districts 4 through 7 and within an approved area plan, may increase maximum land coverage above 70 percent in centers, subject to the following standards:

- a. All runoff from the project area must be treated by a stormwater collection and treatment system ~~if a system is available for the project area~~. The stormwater collection and treatment system must meet applicable TRPA requirements; ~~and~~ a county or city, a utility, a community service or improvement district, or similar public entity with a sustainable funding source must assume perpetual responsibility for operation and maintenance; and

the system must be permitted by the applicable state water quality agency or agencies (i.e., LRWQCB or NDEP depending on where it is located), as required to be included as a component of the TMDL pollutant load reduction measures credited to the entity or entities where the system is located.

- b. To transfer in coverage above 70 percent, the project shall not construct any parking spaces above the parking minimums set by local or state standards, except when required to meet Americans with Disabilities Act requirements or to provide parking for bicycles.
- c. The project is exempt from the density maximums per section 31.4.1.A and the parking minimums per Section 34.4.1, unless an area plan specifies alternative standards per Section 13.5.3.I.C.1.

### **52.3.1. Assignment of Bonus Units**

Finding: TRPA finds the proposed Code amendments will not have a significant effect on the environment.

Rationale: An Initial Environmental Checklist (IEC) was prepared to evaluate the effects of the proposed amendments to the Code of Ordinances (see Attachment B). The IEC found that the proposed Code amendments would not have a significant effect on the environment.

The proposed amendments are consistent with the Goals and Policies of the Regional Plan and will better implement the Phase 2 Housing Amendments. The amendments are not anticipated to result in significant environmental effects. As demonstrated in the accompanying findings, amendments to Chapter 30 and Chapter 52 will not result in a significant impact on the environment or cause the environmental threshold carrying capacities to be exceeded.

### TRPA Code of Ordinances Section 4.4—Threshold-Related Findings

1. Finding: The amendments to the Code of Ordinances are consistent with and will not adversely affect implementation of the Regional Plan, including all applicable goals and policies, plan area statements and maps, the Code, and other TRPA plans and programs;

Rationale: The proposed code amendments will not have significant environmental impacts and will improve TRPA's ability to implement the Phase 2 Housing Amendments. The Code amendments are consistent with the Regional Plan Goals and Policies and all implementing elements of the Regional Plan.

2. Finding: The proposed amendments will not cause the environmental threshold carrying capacities to be exceeded; and

Rationale: The proposed amendments are consistent with the threshold attainment strategies in the Regional Plan. As demonstrated in the findings, these amendments will not cause the environmental threshold carrying capacities to be exceeded.

3. Finding: Wherever federal, state, or local air and water quality standards apply for the region, the strictest standards shall be attained, maintained, or exceeded pursuant to Article V(d) of the Tahoe Regional Planning Compact.

Rationale: The proposed amendments do not exceed any state, federal, or local standards.

### TRPA Code of Ordinances Section 4.6—findings Necessary to Amend or Adopt TRPA Ordinances, Rules, or Other TRPA Plans and Programs.

**Project Description:**

In December 2023, the TRPA Governing Board approved the Phase 2 Housing Amendments, a set of targeted changes to Lake Tahoe zoning regulations to incentivize deed-restricted affordable and workforce housing through more flexible development standards (i.e. height, coverage, density, and parking), while also benefiting water quality and reducing traffic and vehicle use. The Regional Plan and Code amendments took effect on February 11, 2024. Staff now recommend the technical clarifications to ensure the Phase 2 Housing Amendments fully align with the Governing Board’s intent, specifically with regard to water quality requirements for land coverage incentives, and the availability of bonus units for different types of affordable and workforce housing.

TRPA staff recommends the following amendments be made to the Code of Ordinances:

1. Technical clarifications to Code Sections 30.4.2.B.5.a and 30.4.2.B.6.a, making clear that participation in a stormwater collection and treatment system is a prerequisite for land coverage incentives, regardless of whether such a system is available for the project area. See Attachment B. The edit confirms that projects must be served by a stormwater collection and treatment system to qualify for incentives, thereby tying the Phase 2 Housing amendments to tangible water quality improvements.
2. Technical clarifications to Code Section 52.3.1 to fully align the Code’s allocation of available residential bonus units with the Governing Board’s intent. Prior to the Phase 2 Housing Amendments, Code Section 52.3.1 reserved 50% of the residential bonus units for affordable housing, and the other 50% for moderate income or achievable housing. In adopting the Phase 2 Housing Amendments, the Governing Board expressed a specific intent to limit achievable housing to 25% of the bonus units. The motion approved at the Board’s hearing included Code language setting the bonus unit allocation for achievable housing at 25% and leaving affordable and moderate-income housing to draw from the remaining 75%. Although moderate income projects typically arise less often, the resulting Code language suggested the potential for moderate income projects to access a larger share of bonus units previously reserved exclusively for affordable projects. Staff believe the Board did not intend to eliminate the percentage of bonus units reserved exclusively for affordable housing. Accordingly, the proposed technical clarifications would confirm the availability of residential bonus units as follows:
  - 50% reserved exclusively for affordable housing;
  - 25% available for affordable or moderate income housing;
  - 25% available for affordable, moderate income, or achievable housing.

See Attachment B. The technical changes do not alter substantive provisions of the Code or result in any substantive change to the Code. The changes merely provide clarifications to align the Phase 2 Housing Amendments with the Board’s intent.

The proposed amendments would utilize area-wide stormwater systems to treat runoff from deed restricted developments. To overcome some of the site-specific challenges of capturing and infiltrating stormwater onsite through BMPs, the 2012 Regional Plan EIS identified a benefit to water quality with the expansion of area-wides.
