90.2. OTHER TERMS DEFINED

Achievable Housing

Single or multi-family residential development to be used exclusively as a residential dwelling by permanent residents who meet one or more of the following criteria:

1. Have a household with an income not in excess of 120 percent of the respective county's area median income (AMI) (moderate income households and below);

2. At least one occupant of the household works at least 30 hours per week or full-time equivalency for an employer with a business license or tax address within the Tahoe region or Tahoe-Truckee Unified School District. Full-time equivalency may be confirmed by employer. n household achievable area median income (AMI) percentage, using the following methodology:

~~1. Determine the county's median income where the housing development will be located using income limits for a family of three published annually by the US Department of Housing and Urban Development and, if applicable, the California Department of Housing and Community Development.~~

~~2. Determine the county's median single or multi-family housing price, as applicable, where the housing development will be located using median housing prices published annually by the TRPA.~~

~~3. Divide the median single or multi-family housing price, as applicable, (determine in Step 2) by 3.79 (buying power) to determine the annual income needed to afford an achievable housing unit.~~

~~4. Divide the annual income needed (calculated in Step 3) by the median income (determined in Step 1) to determine the achievable AMI percentage.~~

3. Is a retired person who has lived in a deed-restricted unit in the Tahoe Basin for more than seven years.

The employment requirement for occupants with incomes over 120 percent of AMI may be waived for accessory dwelling units when the unit is occupied by a family member. TRPA may include asset limits for purchasers of deed-restricted homes.

Example:

~~• Median Single Family or Multi-family Home Price (Step 1) / 3.79 = Annual Income Needed~~

~~Annual Income Needed (Step 3) / HUD County AMI (Step 2) = Achievable AMI Percentage~~

• El Dorado Median Multi-family home price of \$330,000 / 3.79 = \$87,071 Annual Income Needed

87,071 Annual Income Needed / \$65,500 HUD El Dorado AMI = 127% maximum AMI per household to be eligible for an achievable residential bonus unit

This calculation may be periodically adjusted to reflect changes in the affordability gap between median income and median home price within the Lake Tahoe Basin. Maximum AMI per county per household to be eligible for an achievable bonus unit will be available upon request from TRPA. Achievable housing units shall meet the criteria and restrictions in accordance with Chapter 52: *Bonus Unit Incentive Program*.

Achievable deed-restrictions issued before [the date this code amendment goes into effect] may utilize this definition or the definition of "achievable" in effect from December 20, 2018 to [the date this code amendment goes into effect].
