

## Attachment A

### Required Findings/Rationale

Required Findings: The following is a list of the required findings as set forth in Chapters 3, 4, 30 and 61 of the TRPA Code of Ordinances. Following each finding, Agency staff has indicated if there is sufficient evidence contained in the record to make the applicable findings or has briefly summarized the evidence on which the finding can be made.

1. Chapter 3 – Required Findings:

Based on the information submitted in the IEC, and other information know to TRPA, TRPA shall make one of the following findings and take the identified action:

- (a) The proposed project could not have a significant effect on the environment and a finding of no Significant effect shall be prepared in accordance with the Rules of Procedure, Section 6.6;
- (b) The proposed project could have a significant effect on the environment but, due to the mitigation measures that have been added to the project, the project could have no significant effect on the environment and a finding of no significant effect shall be prepared in accordance with Rules of Procedure Section 6.7; or
- (c) The proposed project may have a significant effect on the environment and an environmental impact statement shall be pared in accordance with Chapter 3 of the TRPA Code of Ordinances and the Rules of Procedure, Article 6.

Based on the information provided in this staff report, the project application, the Initial Environmental Checklist (IEC), and Article V(g) Findings Checklist, there is sufficient evidence demonstrating that the proposed project, with the proposed conditions and mitigation measures outlined in the THP, will not have a significant effect on the environment and a finding of no significant effect shall be prepared.

2. Chapter 4 – Required Findings:

- (a) The project is consistent with and will not adversely affect implementation of the Regional Plan, including all applicable Goals and Policies, Plan Area Statements and maps, the Code and other TRPA plans and programs.

Based on the information provided in this staff report, the project application, the Initial Environmental Checklist (IEC), and Article V(g) Findings Checklist, there is sufficient evidence demonstrating that the proposed project is consistent with and will not adversely affect implementation of the Regional Plan, including all applicable Goals and Policies, the TRPA Code and other TRPA plans and programs.

- (b) The project will not cause the environmental threshold carrying capacities to be exceeded.

TRPA staff has completed the “Article V(g) Findings” in accordance with Chapter 4, Subsection 4.3 of the TRPA Code of Ordinances. All responses contained on said checklist indicate compliance with the environmental threshold carrying capacities. The applicant also completed an IEC. No significant environmental impacts were identified, and staff has concluded that the project will not have a significant effect on the environment.

- (c) Wherever federal, state or local air and water quality standards applicable for the Region, whichever are strictest, must be attained and maintained pursuant to Article V(g) of the TRPA Compact, the project meets or exceeds such standards.

3. Chapter 61: Vegetation and Forest Health

- (a) Tree Removal: Before tree-related projects and activities are approved by TRPA, TRPA shall find, based on a report from a qualified forester, that the project or activity is consistent with this chapter and the Code. TRPA may delegate permit issuance to a federal, state, or other qualified agency through a memorandum of understanding.

The State-approved timber harvest plan was prepared by a registered forester and approved by the California Department of Forestry. The project is consistent with the TRPA Code of Ordinances including Chapter 61 standards for tree removal, vegetation protection, and revegetation. See additional information in the Tree Removal section of the staff report.
