3 Steps Closer to Fun! -Clean, Drain and Dry-

Attention Boaters: Lake Tahoe watercraft inspection stations remain closed following state health orders and travel restrictions. Vessels that do not need an inspection can proceed directly to one of the launch facilities listed on the [Ready to Launch](#) page. Only vessels with an intact Lake Tahoe inspection seal can launch at this time. Please check back regularly to know when inspection stations may be opening. Thank you for your patience and for helping protect Lake Tahoe.

Ready to Launch

At this time, only vessels with an intact Lake Tahoe inspection seal can launch and no uninspected vessels from outside the Tahoe Region will be able to get on the water until orders to help slow the spread of the coronavirus are further relaxed. Watercraft inspection stations for the detection and prevention of aquatic invasive species will remain closed to boaters until further direction from public health officials.
