STAFF REPORT

Date: May 20, 2020
To: Tahoe Metropolitan Planning Organization (TMPO) Governing Board
From: TMPO Staff
Subject: Approval of the TMPO Lake Tahoe Transportation Overall Work Program for FY 2021

Summary and Staff Recommendation:

Governing Board adoption of the attached resolution (Attachment A) approving the TMPO FY 2020 Lake Tahoe Transportation Overall Work Program (OWP).

Staff recommends the Tahoe Metropolitan Planning Organization Board adopt the attached TMPO Resolution 2020 -__ approving the FY 2021 OWP.

The Tahoe Transportation Commission recommended approval of the OWP to the TMPO Board at its May 8, 2020 meeting.

Required Motion:

In order to adopt the attached resolution approving the proposed OWP, the Board must make the following motion, based on this staff report and the evidence in the record:

- 1) A motion to adopt TMPO Resolution 2020 -__ (Attachment A) to approve the FY 2021 OWP (Exhibit 1, thereto).

In order for the motion to pass, an affirmative vote of any eight Board members is required.

Project Description/Background:

Federal regulations (Title 23, Sec. 450.314) require each Metropolitan Planning Organization to prepare an annual program of work in cooperation with the States and operators of publicly owned transit services. The regulations specify the OWP shall discuss transportation planning priorities for the Region and all transportation and transportation-related air quality planning activities anticipated in the area during the fiscal year (July 1, 2020-June 30, 2021). The detailed delineation of the transportation planning activities in the OWP serves as the direction for the expenditure of various transportation planning funds received by TMPO/ Tahoe Regional Planning Agency (TRPA). For the TRPA, the transportation OWP then forms the basis for inclusion of the transportation planning functions of the agency into the TRPA annual work program and budget. Staff has attached an executive summary of the FY 2020 OWP (Attachment B) for additional information.

Highlights of the coming year include:

- Finalization of the Regional Transportation Plan
- Improvements to Transportation Modeling and Information Sharing
- Collaborative Regional Transit Planning
- Partner-Based Corridor Planning (US 50 East and SR89/Emerald Bay)
- Federal and State Funding Distribution and Accounting
- Continued and Enhanced Partnerships with Transportation Management Associations (TMAs)
- Continue to Conduct Robust Public Outreach around TRPA Transportation Planning Efforts

TRPA staff prepared the initial draft and started the required 30-day public comment period on March 24, 2020, sharing copies of the draft with the public, state, and federal agencies, as well as the Tahoe Transportation Commission (TTC). A public hearing was conducted at the April 10, 2020 TTC meeting, and the public comment period closed on April 24, 2020. All comments received have been considered and included as appropriate.

Regional Plan Compliance:

The proposed resolution complies with all requirements of the TRPA Regional Plan Goals and Policies, Area Plans, and the Code of Ordinances.

Contact Information:

For questions regarding this agenda item, please contact Michelle Glickert, Principal Transportation Planner, at (775) 589-5204 or mglickert@trpa.org.

Attachment A

TMPO Resolution No. 2020 -__

TAHOE METROPOLITAN PLANNING ORGANIZATION
TMPO RESOLUTION NO. 2020-__

ADOPTION OF THE TMPO 2021 TRANSPORTATION OVERALL WORK PROGRAM

WHEREAS, the Tahoe Metropolitan Planning Organization (TMPO) has been designated by the Governors of California and Nevada for the preparation of transportation plans and programs under Title 23, CFR 450; and

WHEREAS, each MPO is required to adopt an Overall Work Program (OWP), also referred to as the Unified Planning Work Program (UPWP), describing the planning priorities facing the Region and the planning activities anticipated for the Region over the next year; and

WHEREAS, staff have prepared an OWP that describes the anticipated revenues and expenditures and planning activities and products for transportation and air quality planning purposes over the next year; and

WHEREAS, the Federal Highway Administration, the Federal Transit Administration, Caltrans and the Nevada Department of Transportation have reviewed and commented upon a draft version of the 2021 OWP; and

WHEREAS, the Tahoe Transportation Commission has conducted public meetings at which the 2021 OWP was an officially noticed item that was discussed and was recommended for approval; and

WHEREAS, staff is requesting that the TMPO Governing Board adopt a final 2021 OWP for submittal to state and federal agencies for approval, and authorize staff to take actions necessary for this approval; and

WHEREAS, the TMPO certifies that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of the federal statutes listed on the MPO Planning Process Certification and Federal Transit Administration certifications included in the 2021 OWP document.

NOW, THEREFORE, BE IT RESOLVED that the Governing Board of the Tahoe Metropolitan Planning Organization approves the 2021 Tahoe Basin Transportation Overall Work Program, appended hereto as Exhibit 1.

PASSED AND ADOPTED by the Governing Board of the Tahoe Metropolitan Planning Organization this 27th day of May, 2020, by the following vote:

Ayes:

Nays:

William Yeates, Chair
Tahoe Metropolitan Planning Agency

TAHOE REGIONAL PLANNING AGENCY

Lake Tahoe

The Lake Tahoe Transportation Overall Work Program for FY 2020/2021 is a comprehensive annual plan of work for the Tahoe Regional Planning Agency's Transportation Planning Program and is funded through transportation planning grants administered by the following agencies:

California Department of Transportation (Caltrans)

Nevada Department of Transportation (NDOT)

Federal Highway Administration (FHWA)
California Division Office
Nevada Division Office

U.S. DOT Credit/Disclaimer:

This report was funded in part through grants from the Federal Highway Administration, U.S. Department of Transportation. The views and opinions of TRPA expressed herein do not necessarily state or reflect those of the U.S. Department of Transportation.

INTRODUCTION

The Overall Work Program (OWP), also referred to as a Unified Planning Work Program, defines the continuing, comprehensive, and coordinated regional transportation planning process for the Lake Tahoe Basin. It establishes transportation, air quality, and other regional planning objectives for Fiscal Year 2020/2021 covering the period of July 1, 2019 through June 30, 2021 (FY 20/21), and a corresponding budget to complete the work. The OWP is a strategic management tool for the Tahoe Regional Planning Agency (TRPA) serving as the Tahoe Metropolitan Planning Organization (TMPO) for the Lake Tahoe Region organized by work elements that identify activities and products to be accomplished during the year. These activities include core metropolitan planning functions, mandated metropolitan planning requirements and other regional transportation planning activities. The OWP presents an annual outline of the TRPA's transportation planning resources and includes a budget containing a variety of funding sources that are available to the TRPA for FY 20/21.

All activities contained in this OWP are carried out by TRPA's Metropolitan Planning Organization (MPO) function and will be referred to as TRPA throughout the document. The OWP is also as an informative tool for the Tahoe Transportation Commission (TTC) who serves as an advisory board to the TMPO. The MPO Policy Board, referred to as the TMPO, convenes as a separate entity that is made up of the TRPA Governing Board with the addition of a United States Forest Service voting representative. The TMPO is convened as necessary to act on all MPO related actions.

LAKE TAHOE TRANSPORTATION PLANNING OVERVIEW

TRPA holds three integrated regional transportation planning authorities: 1) Tahoe Regional Planning Compact (PL 96-551) planning requirements, 2) Regional Transportation Planning Agency for the California portion of the Lake Tahoe basin, and 3) the Metropolitan Planning Organization for the Tahoe Region. The Tahoe Regional Planning Compact also created the Tahoe Transportation District in Article IX which includes public transit and transportation implementation responsibilities.

The 1980 Tahoe Regional Planning Compact includes the following transportation related provisions:

“...there be established a Tahoe Regional Planning Agency with the powers conferred by this compact including the power to establish environmental threshold carrying capacities and to adopt and enforce a regional plan and implementing ordinances which will achieve and maintain such capacities while providing opportunities for orderly growth and development consistent with such capacities.”

The TRPA Regional Plan shall be a single enforceable plan with the following related elements:

- ✓ A Goals and Policy Plan
- ✓ A Transportation Plan for the integrated development of a regional system of transportation, including but not limited to parkways, highways, transportation facilities, transit routes, waterways, navigation facilities, public transportation facilities, bicycle facilities and appurtenant terminals and facilities for the movement of people and goods, within the region.
- ✓ The goal of transportation planning shall be:

- To reduce dependency on the automobile by making more effective use of existing transportation modes and of public transit to move people and goods within the region; and
- To reduce, to the extent feasible, air pollution caused by motor vehicles.
- ✓ Where increases in capacity are required, the agency shall give preference to providing such capacity through public transportation and public programs and projects related to transportation.
- ✓ The plan shall provide for an appropriate transit system for the region.
- ✓ The plan shall give consideration to:
 - Completion of the Loop Road in the states of Nevada and California
 - Utilization of a light rail mass transit system in the South Shore area
 - Utilization of a transit terminal in the Kingsbury Grade area

TRPA establishes transportation and land use policy direction by virtue of the Code of Ordinances, Goals and Policies, Plan Area Statements, and Local Area Plans. Additionally, TRPA administers the Environmental Improvement Program (EIP), a regional investment program focused on the restoration and protection of Lake Tahoe. The EIP is a programmatic approach to implementing transportation improvements, in addition to other resource area investments. The Transportation and Air Quality subprogram of the EIP is the largest category of identified investments in the EIP and is coordinated with federal funding allocations and programming activities of TRPA.

In addition to the responsibilities under the Tahoe Regional Planning Compact, TRPA is recognized as the Regional Transportation Planning Agency (RTPA) in California. As the RTPA, TRPA is charged with developing a Regional Transportation Plan (RTP), a Regional Transportation Improvement Program (RTIP) to account for California state transportation funding programs.

The Metropolitan Planning Organization (MPO) authority was established in 1999 by the Governors of California and Nevada by designating the Lake Tahoe MPO under authority provided in federal regulations. TRPA's MPO role is primarily a transportation planning and financial programming role. The three primary products required of an MPO by federal rule are a Regional Transportation Plan, Federal Transportation Improvement Program (FTIP), and an OWP. The MPO Governing Board is comprised of the TRPA Governing Board, with the addition of a voting representative of the United States Forest Service, Lake Tahoe Basin Management Unit (USFS-LTBMU).

The integration of the three authorities listed above is supported by the various activities and programs carried out by TRPA's Transportation Planning Program. The ability to integrate land use and transportation planning at a regional level, while considering impacts on implementation efforts, is a prime focus of this program and supports federal and state planning guidance.

Lake Tahoe's unique setting and environmental stature necessitates developing transportation plans and projects that are evaluated in conjunction with TRPA's environmental standards called "environmental threshold carrying capacities" (under the following nine categories: water quality, air quality, noise, scenic quality, soil preservation and stream environment zones, wildlife, fisheries, vegetation conservation, and recreation) and transportation goals.

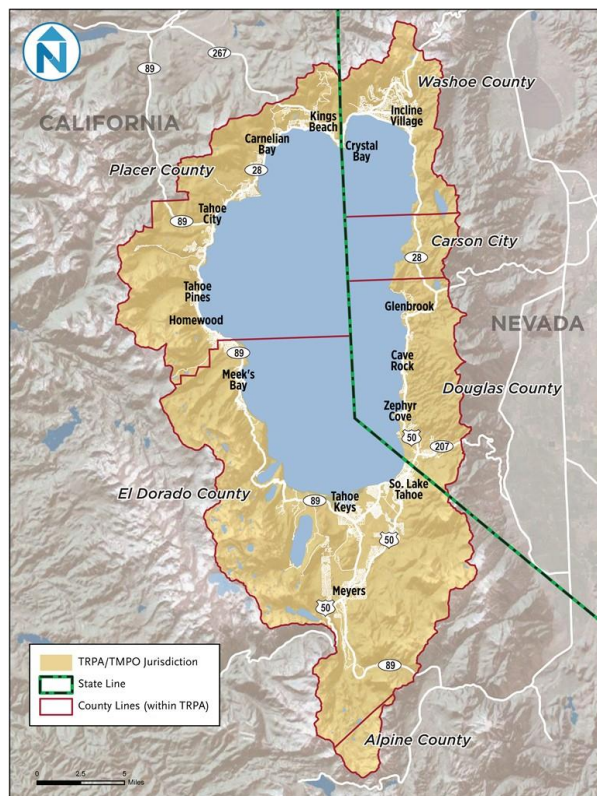

SETTING

The Tahoe Region is located on the border of the states of California and Nevada, between the Sierra Crest and the Carson Range. Approximately two-thirds of the Region is located in California, with one-third within the state of Nevada. The Tahoe Region contains an area of about 501 square miles, of which approximately 191 square miles comprise the surface waters of Lake Tahoe and includes a 37 square mile urban boundary containing the commercial and residential activity. Lake Tahoe dominates the features of the Region and is the primary focus of local and regional environmental regulations to protect its exceptional water clarity. Over 80% of the land area in the Lake Tahoe Basin is publicly owned and represents a major recreation attraction.

Located within the California portion of the Tahoe Region is the incorporated City of South Lake Tahoe and portions of El Dorado County and Placer County. This part of the Region is within the fourth Congressional District of California. Based on the 2010 Census, the resident population of the Tahoe Region was 54,862. This is a significant decline from the 62,894 population estimated by the 2000 Census. Of the 54,862 population figure, 41,176 people reside within the California portion, while the Nevada side of the Tahoe Region, portions of Washoe County, Douglas County, and the rural area of Carson City make up the remaining 13,686 in population. The Nevada portion of the Region is within Nevada’s second Congressional district.

Lake Tahoe and the surrounding areas serve as a major recreation destination for residents of the surrounding metropolitan areas of northern Nevada and California. The primary market for recreation at Lake Tahoe is from northern California, primarily the Sacramento and San Francisco Bay Area. Residents from Reno/Sparks and Carson Valley are also frequent day visitors to the area. Additional domestic and international visitors arrive via Reno Tahoe International and Sacramento International Airports. Visitors account for over 10 million cars annually.

Serving the resident and visitor populations are public and private fixed route transit, shuttles, and specialized transit services, as well as general aviation services at the South Lake Tahoe Airport. The Federal and State highway network around the Lake serve as community main streets. There are seven access points to the Basin from outside the region. A variety of state route segments encircle the lake. Portions of the Region are served by a growing bicycle and pedestrian network. Public transit is provided on the north shore by Tahoe Truckee Area Regional Transit (TART), operated by Placer County and transit service on the south shore is provided by the TTD. Both public transit systems are complemented by a variety of private shuttles for summer and winter activities. Airport shuttle operations, including the North Lake Tahoe Express and the South Tahoe Airporter, provide shuttle service to the Reno/Tahoe Airport.

TAHOE BASIN TRANSPORTATION PLANNING INSTITUTIONAL STRUCTURE

As noted previously, the Lake Tahoe Region holds various federal, state and local transportation planning authorities. The Region's planning complexity requires the utmost coordination and collaboration among transportation and land use planning partners. The following section provides a brief description of the regional entities that have a role in the transportation policy or technical decision-making process.

The Tahoe Regional Planning Agency (TRPA) was created by the Tahoe Regional Planning Compact (updated in 1980 through P.L. 96-551) and is governed by a fourteen-member Governing Board, with a non-voting federal representative as the fifteenth member. Each state has seven representatives, with each local jurisdiction within the Region also represented. TRPA is unique because of its regional bi-state responsibilities under the Compact for land use planning, transportation planning, project review and approval, enforcement of regional land-use and environmental ordinances, and the achievement of environmental goals. The TRPA Governing Board has established an Environmental Improvement Program Committee that provides feedback on various transportation planning and funding allocation proposals.

TRPA, as the Metropolitan Planning Organization, is responsible for taking the required actions under federal regulations regarding metropolitan planning. The MPO metropolitan planning area is concurrent with that of the TRPA. The MPO Board of Directors is comprised of the fourteen voting members of the TRPA Governing Board, and a voting representative of the United States Forest Service, USFS-LTBMU. The MPO voted to provide that the Chair and Vice-Chair of the TRPA serve as Chair and Vice-Chair of the MPO, unless the MPO votes otherwise. The Placer County seat on the TMPO board is the transit operator representation required by MAP-21.

It is important to note that these two policy bodies, although they include many of the same individuals, have diverse missions and responsibilities. The TRPA's overriding obligation is adherence to the Compact, including attaining and maintaining environmental thresholds. The MPO's mission, on the other hand, is to provide policy decisions on transportation plans and programs. As described above, integration of the land use and transportation planning process is in place to support the TRPA mission and policies through the MPO and Regional Transportation Planning Agency authorities and planning requirements.

TRPA is statutorily designated by the State of California as a Regional Transportation Planning Agency for the Tahoe Region. As an RTPA, TRPA must fulfill various statutory requirements, including those of the Transportation Development Act, coordination with California Department of Transportation (Caltrans) on the development of Regional Transportation Plans and Regional Transportation Improvement Programs and other project related activities. The TRPA Governing Board indicates that it is sitting as the RTPA when taking a policy action, but no changes to the membership of the Governing Board occur.

Tahoe Transportation
DISTRICT

Article IX of the Tahoe Regional Planning Compact created the Tahoe Transportation District. The TTD is responsible for the implementation of transportation plans, programs and projects. The TTD may acquire, own and operate public transportation systems and parking facilities, and other transportation infrastructure serving the Tahoe Region and provide access to convenient transportation terminals outside of the Region. The TTD also has limited authority to generate revenue to support transit and transportation facilities. Board membership includes representation from the Basin's two Transportation Management Associations, an at-large member representing transit providers, and a representative for any special transit districts formed under California law. Caltrans and the Nevada Department of Transportation (NDOT) each have a non-voting member on the Board of Directors. New legislation from the State of California (SB-785) and Nevada amended Article IX Transportation District of the compact changing membership of the board by adding to the board three new appointees; one by the Governor of California, one by the Governor of Nevada and one by the Tahoe Regional Planning Agency. The TTD is an important partner for implementing the RTP and increasing project implementation capacity region-wide.

TAHOE TRANSPORTATION COMMISSION

The Tahoe Transportation Commission (TTC) is a designated advisory body in the metropolitan planning process responsible with providing the MPO and TRPA transportation planning and policy recommendations. The TTC was formalized through TRPA and TMPO resolutions passed in 1999.

The TTC is charged with providing the MPO with technical input and recommendations on transportation plans and programs, offering proactive public participation through its meeting noticing requirements, and providing the MPO Board time necessary to address the full range of complex and interrelated transportation issues facing the Lake Tahoe Basin. The TTC provides policy guidance to the TRPA and is where additional debate can take place prior to final actions being taken. The TTC is comprised of the voting membership of the TTD, with the addition of representatives from the Washoe Tribe of California and Nevada, USFS-LTBMU and the TRPA Advisory Planning Commission (APC).

TRPA STRATEGIC PLAN AND THE TRANSPORTATION PROGRAM

The Transportation Planning Program plays an integral role in implementing the TRPA Strategic Plan. The TRPA Strategic Plan encompasses the intent of the federal cooperative, continuing, and comprehensive transportation planning approach required of MPOs. Building partnerships that result in projects that support the human and natural environment is a fundamental vision of the Strategic Plan.

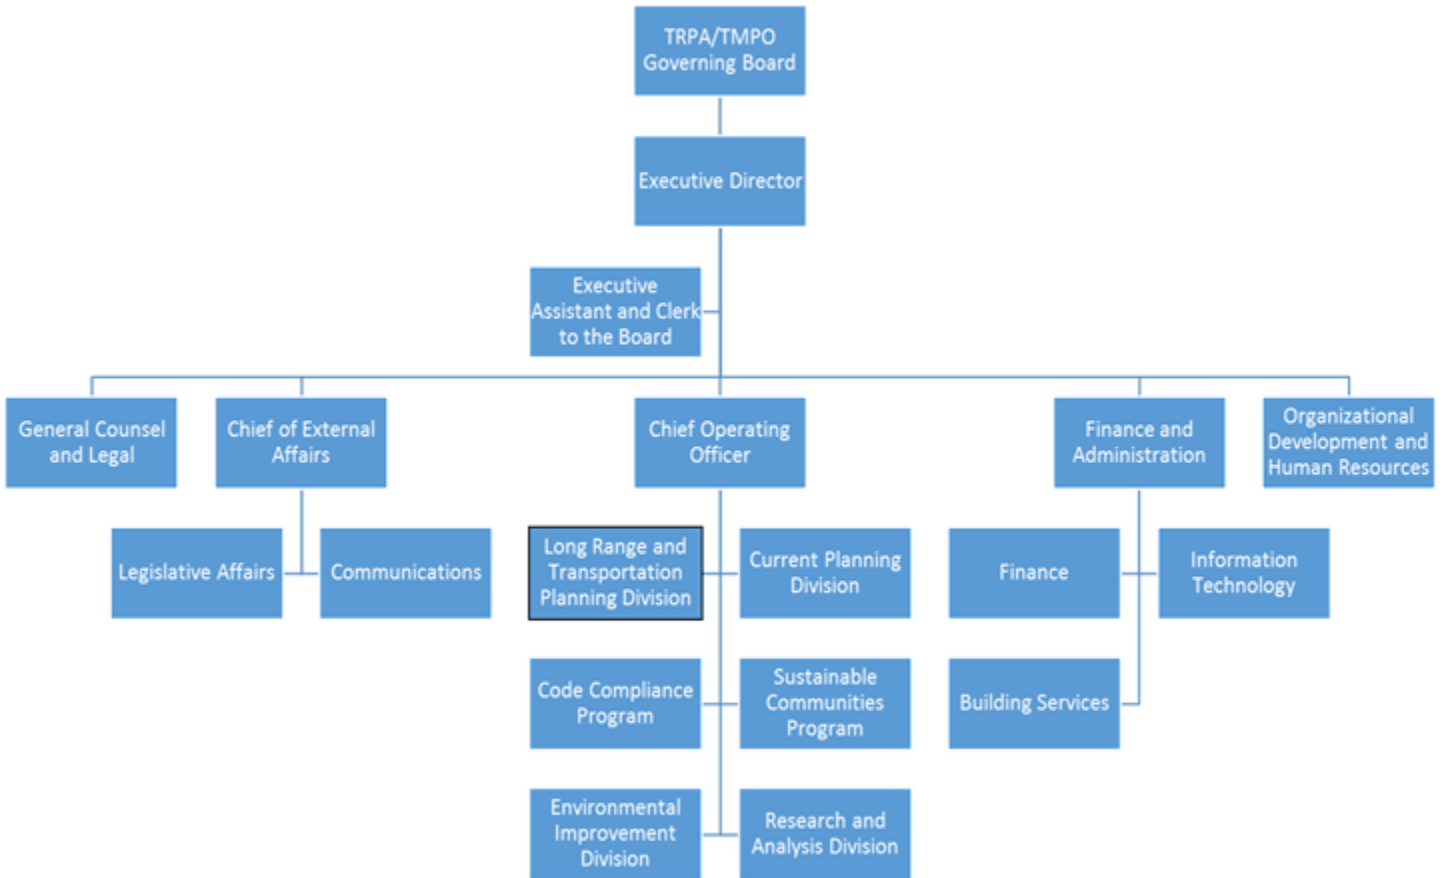

TRPA “Strategic Goals” include:

- 1) Accelerate Threshold Attainment**
Focus on Regional issues and develop new funding opportunities to continue the Environmental Improvement Program.
- 2) Propel the Development and Use of Best Information, Data and Science**
Continue strong relations with the science community and improve measurement and reporting for accountability.
- 3) Establish TRPA as a Leader in Environmental & Sustainability Programs**
Seek best practices and form new strategic alliances.
- 4) Operate as a High-Performance Organization**
Create an enduring organizational culture of high performance and continuous improvement.

OUTREACH AND PUBLIC INVOLVEMENT

An important component of the MPO transportation planning process is consultation and public participation in the development of plans, programs and policy. The regional transportation planning program establishes an important forum for discussing and resolving regional transportation issues. Some examples of executing the continuing, coordinated, and cooperative planning process include board meetings, public workshops, technical committees, issue specific meetings, public hearings, and formal public document review periods. TRPA has developed specific policies and procedures for consulting partners and engaging public participation through the recently updated *Public Participation Plan (PPP)* ([link](#)). The PPP emphasizes efforts to coordinate with underserved and underrepresented groups and the utilization of both new technology and conventional in-person communication to maximize public participation and engagement. Additional information regarding TRPA’s effort to provide a transparent non-discriminatory operation is documented by the [TRPA Title VI Program](#).

NATIVE AMERICAN TRIBAL GOVERNMENT CONSULTATION

The Lake Tahoe Region is home to one Tribal Government, the Washoe Tribe of California and Nevada. TRPA conducts regular government-to-government communication with the Washoe Tribe to consider tribal needs in the planning and programming process. The Washoe Tribe is a voting member of the Tahoe Transportation Commission, the advisory body to the TMPO Governing Board. TRPA is actively working with the Washoe Tribe on a MOU to memorialize the government-to-government relationship between the two parties.

CORE MPO PLANNING FUNCTIONS

TRPA ensures MPO core planning functions are identified in the OWP and include a clear description of the activities, products, and schedules that support the federal transportation planning process as identified in 23 CFR 450. MPO Core Functions include:

- Overall Work Program (**Work Element 101**)
- Public Participation and Education (**Work Element 103**)
- Regional Transportation Plan (**Work Element 104 and 108**)
- Federal Transportation Improvement Program (**Work Element 106**)
- Congestion Management Process (**Work Element 107**)
- Annual Listing of Projects (**Work Element 106**)

FEDERAL HIGHWAY ADMINISTRATION (FHWA) PLANNING FACTORS

The latest Federal transportation bill (FAST Act) expanded the scope of factors to consider in the transportation planning process. The matrix below illustrates how FAST Act planning factors (23 USC Section 134(h)) are addressed across work elements in the OWP.

Fiscal Year 20/21 FHWA Transportation Planning Factors

		Work Elements

Sustainable Communities

WE 108 – Sustainable Communities Planning

NOTE: All activities and products identified in the following Work Elements are part of the regional transportation planning process and are assumed to be eligible expenses for the budgeted funding sources.

WORK ELEMENT 101: PROGRAM ADMINISTRATION

PURPOSE

To support tasks necessary for the overall administration of the regional transportation planning program; to support the MPO core planning function to provide on-going management of the OWP/UPWP; to support staff career development through professional trainings and seminars related to transportation planning.

DISCUSSION

The TRPA regional transportation planning program is administered through a Unified Planning Work Program (UPWP), also known as an Overall Work Program (OWP). The OWP must include all anticipated transportation planning activities proposed with federal and state planning funds. As a priority MPO core planning function, TRPA staff develops the OWP in a transparent public process and is ultimately adopted by the MPO Governing Board.

In the most recent federal transportation authorization bill, Fixing America’s Surface Transportation Act (FAST Act), the Lake Tahoe Region was recognized as a Transportation Management Area (TMA) with a total population of 210,000. As a TMA there are additional requirements that address congestion management, additional planning and programming considerations, and FHWA Planning Certification reviews every four years. The activities included in this work element involve administrative efforts to support the MPO program as required by federal planning statutes. TRPA completed its first Federal Certification Review as a TMA in 2019 and had no corrective actions and one commendation regarding its public involvement process. The next certification review is due by December of 2023. Specific ongoing TMA planning activities are called out in subsequent Work Elements.

TRPA invests in the professional development of its workforce to aid in creating a high-performance organization.

PREVIOUS WORK

- FY 19/20 OWP administration and financial reporting
- TRPA staff attended transportation planning professional development trainings
- Supported FHWA/FTA Planning Certification Review process

PRODUCTS		COMPLETION DATE
P-1	Closeout FY 19/20 OWP	July 2020
P-2	Final FY 20/21 OWP and OWPA	July 2020
P-3	FY 20/21 OWP Amendment(s)	April 2021
P-4	Draft FY 21/22 OWP	March 2021

TASKS

- T-1 **Overall Work Program/Budget**
- Administer FY 20/21 OWP document and related amendments
 - Coordinate quarterly and end of year reporting
 - Provide grant management and oversight of transportation planning grants
 - Budget and agreement administration

- Host annual meeting with State and Federal partners to review proposed FY 21/22 OWP initiatives
- FY 21/22 OWP development

T-2 Staff Development in Regional Transportation Planning

- Support internal cross training to promote diverse staffing capabilities in regional transportation planning
- Attend trainings, both in-house and outside courses and seminars, that directly relate to transportation planning

Work Element 101 Budget:

REVENUES		EXPENDITURES	
Direct Costs:		Direct Costs:	
TRPA General	\$20,000	Travel/Training	\$20,000
Subtotal:	\$20,000	Subtotal:	\$20,000
TMPO Staff:		TMPO Staff:	
FHWA PL (CA)	\$55,000		
-Toll Credits (PL-CA)	\$6,309		
FHWA PL (CA-Carryover)	\$72,976		
-Toll Credits (CA-PL Carry)	\$8,370		
		Wages/Benefits:	\$73,130
		Est. Indirect Cost:	\$54,846
Subtotal:	\$127,976	Subtotal:	\$127,976
Total:	\$147,976	Total:	\$147,976

**Toll Credits are displayed for tracking purposes and are not a form of cash or revenue.

WORK ELEMENT 102: TRANSPORTATION DEVELOPMENT ACT

PURPOSE

To administer requirements of the California Transportation Development Act (TDA); to process the Local Transportation Funds (LTF) and State Transit Assistance (STA) funds for allocation to local entities; to prepare the annual Unmet Transit Needs Assessment; to monitor the completion of necessary operational and financial audits; to conduct productivity and efficiency analysis of TDA-funded transit operations per TDA requirements and provide recommendations.

DISCUSSION

LTF and STA funds are eligible for funding transportation projects in the Tahoe Region. TRPA, serving as the Regional Transportation Planning Agency, is responsible for processing and monitoring the distribution and use of these funds. These required roles help TRPA ensure LTF and STA funds are being administered in accordance with TDA requirements.

One of the annual tasks included in this work element is the “Unmet Transit Needs” process, which is required under California Public Utilities Code (PUC) Section 99401.5. TRPA’s unmet transit needs process is accomplished through the Social Services Transportation Advisory Council (SSTAC), in accordance with TDA requirements, with additional assistance from the Tahoe Area Coordinating Council for the Disabled (TACCD), Truckee - North Tahoe Transportation Management Association (TNT-TMA), Community Collaborative of Truckee Tahoe (CCTT), South Shore Transportation Management Association (SSTMA). The process is also conducted in cooperation with Placer County Transportation Planning Agency (PCTPA) and Nevada County Transportation Commission (NCTC). The unmet needs process is also coordinated with transit operators and short-range transit plan development.

Per PUC Section 99244, TRPA is required to annually identify, analyze, and recommend potential transit productivity improvements, which could lower operating costs and increase efficiency. TRPA fulfills this requirement with the Transit Productivity Improvement Program (PIP) that monitors operations data and works cooperatively with the transit operators to implement recommended service improvements.

All TDA funds are used for public transit, therefore TRPA conducts unmet needs hearings as transit forums that provide for the identification of needs and direct operational feedback to transit operators. SSTAC reviews the information annually at a public hearing.

PREVIOUS WORK

- Began work on Triennial Performance Audits of transit operators receiving TDA funds
- Completed updated TDA Handbook for use by claimants
- Provided LTF and STA Estimates
- Processed TDA Claims
- Held 2019 Unmet Transit Needs Forum

PRODUCTS		COMPLETION DATE
P-1	Submit TDA Schedule of Performance Audits	August 2020
P-2	Submit Annual Report of Financial Transactions	September 2020
P-3	Develop Productivity Improvement Recommendations	October 2020
P-4	Complete claimant and TRPA Financial Audits	December 2020

P-5	Conduct and document Unmet Transit Needs/Transit Forums	October 2020
P-6	Release LTF and STA Preliminary Findings of Apportionment	February 2021
P-7	Prepare and produce FY 20 Unmet Transit Needs Assessment	March 2021
P-8	Release Final LTF Apportionments	May 2021
P-9	LTF and STA allocation instructions to County Auditors	June 2021
P-10	Triennial Performance Audits	September 2020

TASKS

T-1 TDA Administration

- Process TDA Claims: notify claimants of funds available for apportionment; process claims for TRPA approval; submit allocation instructions to Auditor-Controllers
- Monitor quarterly reports from Auditor-Controllers
- Audit Coordination: provide assistance to auditors for TRPA fiscal audits; monitor completion and submittal of claimant audits.
- Review statutes, rules and regulations, and pending legislation pertinent to transit and transit funding
- Analyze service performance and recommend productivity improvements

T-2 Social Services Transportation Advisory Council

- Preparation and coordination for holding unmet transit needs/transit forum hearings
- Conduct meetings of the SSTAC on the north and south shores

T-3 Unmet Transit Needs

- Review and analyze Unmet Transit Needs, make a determination to the SSTAC regarding unmet transit needs and those that are reasonable to meet, discuss, review and accept the Transit Needs Assessment
- Conduct and document unmet transit needs hearings and outreach efforts with traditionally underrepresented and underserved populations and their community leaders (i.e., elderly, disabled, low income, and minorities: Black, Hispanic, Asian American, American Indian/Alaskan Native, and Pacific Islander)

Work Element 102 Budget:

REVENUES		EXPENDITURES	
Direct Costs:		Direct Costs:

Subtotal:	\$16,358	Subtotal:	\$16,358
TMPO Staff:		TMPO Staff:	
TDA Administration	32,000	Wages/Benefits:	\$18,941
TDA Planning	1,147		
		Est. Indirect Cost:	\$14,206
Subtotal:	\$33,147	Subtotal:	\$33,147
Total:	\$49,505	Total:	\$49,505

**Toll Credits are displayed for tracking purposes and are not a form of cash or revenue.

WORK ELEMENT 103: PUBLIC OUTREACH AND COORDINATION

PURPOSE

To support policy boards and attend various local, regional, state, and federal meetings; to coordinate and involve community members, visitors, organizations, and individuals, including the Washoe Tribe of California and Nevada in the regional transportation planning process; to utilize electronic and innovative outreach to maximize the reach to the public; to monitor and report on outreach effectiveness in the next Public Participation Plan (PPP)

DISCUSSION

As part of the regional transportation planning process, staff supports the TRPA/MPO Governing Board and Tahoe Transportation Commission through the development of agendas, staff reports and other board requests. TRPA's regional transportation planning and programming process fosters coordination, consultation, and cooperation and includes participation in various local, regional, state, and federal meetings and committees. Regional collaboration is one of TRPA's core functions. The approach to public involvement and reporting on effectiveness of outreach is contained in the [TRPA Public Participation Plan \(PPP\)](#) and is updated every four years prior to the development of the Regional Transportation Plan.

TRPA has established a transparent inclusive regional transportation planning forum that invites and solicits public input on proposals. Existing policies and procedures are in place to ensure a non-discriminatory transparent public process and are documented in [TRPA's Title VI program](#).

TRPA engages with the Washoe Tribe of California and Nevada through coordination meetings that ensure the Washoe Tribe is involved and aware of transportation policies and projects under consideration in the region. This consultation with the Washoe Tribe is considered a formal government-to-government consultation and is above and beyond any general public outreach. As a member of the TTC, the Washoe Tribe is formally included in the regional planning process and has additional opportunity to provide input on various transportation and associated environmental considerations affecting Tribal interests. TRPA is engaging with the Washoe Tribe to formalize the government to government consultation process through a Memorandum of Understanding (MOU) between TRPA and the Washoe Tribe.

TRPA actively engages with agency partners, key stakeholder groups, and the public on a variety of transportation topics and planning processes. Establishing open communication channels for dialogue through interactive web tools, social media, e-newsletters, workshops, events, and speaker series deepens public understanding of transportation issues and provides continual input for planners.

TRPA continues to improve access to information by making documents and data readily available to the public in both electronic and print versions, including key documents translated to Spanish. The recently updated TRPA transportation website is maintained to provide the latest information.

PREVIOUS WORK

- Adopted the 2019 Public Participation Plan
- Maintained on-going communication with the public through press releases, updates to the web site, and social media on transportation planning activities and concepts

PRODUCTS	COMPLETION DATE
P-1 Quarterly Transportation E-Newsletter	Quarterly
P-2 TRPA website and social media updates to promote new programs and news	Monthly
TASKS	
T-1 TRPA Board Support and Regional Coordination	
<ul style="list-style-type: none"> • Development of agendas, staff reports, technical analysis, and related materials for public and board distribution • Preparation for and participation in local, regional, state, and federal committees, ad hoc meetings, and workshops directly relating to regional transportation planning 	
T-2 Tribal Government Coordination, Consultation, and Collaboration	
<ul style="list-style-type: none"> • Confer with Washoe Tribe of California and Nevada regarding transportation plans and programs via meetings, TTC agendas, direct correspondence, and response to issues raised by the Tribal government • Formalize government-to-government partnership approach with the Washoe Tribal government 	
T-3 Public Participation and Involvement	
<ul style="list-style-type: none"> • Administer the Public Participation Plan (PPP), including documented public involvement procedures • Support public outreach strategy for the 2020 Linking Tahoe: RTP/SCS • Release public notices and other public information to media outlets as appropriate • Produce maps, brochures, displays, and other visualization tools supporting transportation proposals • Participate in and hold public meetings and workshops for various transportation planning concepts and issues • Participate in appropriate regional events to support and promote regional transportation goals and current transportation planning initiatives • TRPA transportation program web maintenance and content updates • Produce monthly e-newsletters for regional transportation news and involvement opportunity issues • Support community participation and education workshops, speaker series, and brown bag presentations (such as Tahoe Talks) • Participate in the Bi-state Transportation Consultation Group as needed, a cabinet-level working group representing high-level officials from the States of California and Nevada, Federal agencies, Local Government, and private sector partners. 	
T-4 Transportation Management Association Coordination	
<ul style="list-style-type: none"> • Work with SS/TMA and TNT-TMA, local jurisdictions, and other community groups to generate partnerships to support effective and widespread adoption and monitoring of TDM program strategies including Commute Tahoe. • Coordinate with TTD, Tahoe Chamber, Lodging and Visitor Associations, and Recreation Providers to strategize on various transportation issues (local work force, resource sharing, improved communication, etc.) and generate targeted recommendations and identify opportunities for public/private partnerships. 	

- T-5 **Environmental Justice**
 - Preparation for and conduct meetings designed to inform and solicit feedback from minority and low-income populations regarding the transportation planning process and to assess impacts on those communities
- T-6 **Civil Rights**

WORK ELEMENT 104: REGIONAL INTERMODAL PLANNING

PURPOSE

To carry out and support the integration of federal, state, and local transportation planning processes; to complete activities and products to satisfy core planning functions, federal metropolitan planning requirements (FAST Act), and California and Nevada requirements; to support transportation policy development and analysis; to consider all modes of transportation in implementing regional transportation goals; to support corridor-level transportation planning; to develop innovative transportation demand management programs; to develop partnerships inside and outside of the Region to further transportation goals.

DISCUSSION

TRPA, in its role as the Metropolitan Planning Organization, supports the established continuing, comprehensive, and *coordinated transportation planning process to establish* a multi-modal transportation system that can adapt to the continually evolving goals and needs of the Lake Tahoe Region and its diverse communities. Transportation staff will develop planning studies in-house, contract for planning services by consultants, conduct public hearings, hold meetings on specific issues with affected public agencies, the general public, and interest groups through various outreach efforts, including community workshops.

The TRPA has committed to an adaptive policy management framework that will provide for coordinated updates of the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) every four years, or as otherwise necessary. The Tahoe Region is maximizing the effectiveness of having integrated land use and transportation plans, as supported by federal and state planning guidance. TRPA is underway in the development of the 2020 Linking Tahoe: RTP/SCS. A primary focus of this work element is the development of the new RTP. This RTP/SCS update is a targeted refinement of the transit and funding sections of the 2017 Linking Tahoe: RTP/SCS and will include baseline and forecast analysis (WE105) and environmental review.

TRPA is increasing its focus on coordination with public and private sector entities to share research and increase awareness of existing travel options for residents and visitors. The Transportation Demand Management (TDM) tasks will also include an assessment of existing conditions and strategies to increase awareness of employer transportation options. TRPA will begin focusing on large employers through the Commute Tahoe program with assistance from the TNT-TMA and SS/TMA. TRPA will continue to support the annual Bike Challenge to increase active transportation in the Region.

In addition to the Regional Transportation Plan TRPA also maintains various modal specific plans including the Active Transportation Plan (ATP)-formerly the Bicycle and Pedestrian Plan, and Intelligent Transportation Systems (ITS) Plan. TRPA also supports the transit operators in updating short-range transit plans. TRPA coordinates with local or state led safety, goods movement, aviation, and system management planning efforts. As a recognition of the impact of the visitor market to Lake Tahoe's transportation system, TRPA will continue to increase participation in other Northern California Megaregion planning efforts. The shared interests of surrounding transportation agencies, including Sacramento Area Council of Governments (SACOG), the Washoe County Regional Transportation Commission (Washoe RTC), county and local governments support a partnership approach to identifying inter-regional transportation solutions.

PREVIOUS WORK

- Maintained the Active Transportation Plan
- Initiated Commute Tahoe program activities
- Coordinated local Area Plans and project consistency with *2017 RTP/SCS*
- Convened the Pathway Partnership to coordinate project prioritization, tracking, and programming
- Drafted Lake Tahoe Transit Monitoring Protocol
- Completed White Paper on Emerging Mobility Services
- Completed Technical Memo on existing E-Bike Policies
- Developed Outreach Plan for the 2020 RTP/SCS
- Submitted 2020 RTP/SCS Methodology to CARB

PRODUCTS	COMPLETION DATE
P-1 Draft <i>2020 Linking Tahoe: RTP/SCS</i> Sections	August 2020
P-2 Final <i>2020 Linking Tahoe: RTP/SCS</i>	October 2020
P-3 Final 2021 Active Transportation Plan	March 2021
P-4 Annual Transit Productivity Improvement Report	May 2021

|-----|--|
| T-1 | <p>Regional Transportation Plan (Core Planning Function)
 <u><i>2017 RTP/SCS</i></u></p> <ul style="list-style-type: none"> • Administration of <i>2017 RTP/SCS</i>, including coordinating with state, local, and federal partners to explore funding opportunities to implement the plan • Process amendments to <i>2017 RTP/SCS</i> as necessary • Participate in public and interagency meetings as a transportation technical resource • Conduct public outreach on <i>2020 Linking Tahoe: RTP/SCS</i> to promote vibrant communities, and improve public health • Develop special studies as needed for the <i>2020 Linking Tahoe: RTP/SCS</i> (i.e.: public-private partnerships, transit, freight, aviation, etc.) • Develop Draft and Finalize <i>2020 Linking Tahoe: RTP/SCS</i> • Review projects to ensure consistency with established transportation plans and <u><i>2020 RTP/SCS</i></u> policies |
| T-2 | <p>Inter-Regional Planning</p> <ul style="list-style-type: none"> • Develop formal planning partnerships with surrounding transportation agencies (Northern California Megaregion – SACOG, MTC, San Joaquin, Washoe RTC, etc.) • Identify freight movement issues and coordinate with Nevada DOT and Caltrans on State Freight Plans • Support the Tahoe-Truckee PEV Readiness Plan and coordinate Regional EV strategy |
| T-3 | <p>Active Transportation Planning</p> <ul style="list-style-type: none"> • Update the <i>Linking Tahoe: Active Transportation Plan</i> for approval in 2020 • Monitor and utilize state and federal bicycle and pedestrian planning requirements and other resources • Support the Pathway Partnership to coordinate regional partners on active transportation policy and planning. |

- T-4 **Transit Planning**
- Administer Transit Planning MOU between TMPO/TRPA, TTD, and Placer County
 - Collect operating data identified by the Transit Planning MOU to support regional performance measures and transit data reporting
 - Develop supporting analysis and materials regarding transit for the *2020 Linking Tahoe: RTP/SCS*
 - Support the update of Short-Range Transit Plans (next 1-5 years) for TTD and TART services
 - Partner with TART and TTD to conduct periodic rider surveys and other outreach to assess current service and provide recommendations based on survey results
 - Coordinate transit elements of regional emergency preparedness programs
 - Notify transit operators of available funding and grants for transit
 - Coordinate with other service providers to plan for inter-regional connections (i.e. Washoe RTC, Carson City RTC, Capitol Corridor JPA, SACOG, SacRT, Etc.)
 - Centralize monitoring of regional transit data and utilize www.LakeTahoeinfo.org to share and display data
 - Analyze transit system performance, develop recommendations, and document via the Transit Productivity Improvement Program (PIP)
- T-5 **Transportation Demand Management (Travel Management)**
- Work with TNT-TMA, SS/TMA and employers to support the Commute Tahoe Program
 - Work in partnership with Lake Tahoe Bicycle Coalition and support the annual Tahoe Bike Challenge
 - Coordinate the Safe Routes to School Program, active transportation education and community outreach program
 - Disseminate educational materials related to Commute Tahoe strategies and programs.
 - Update www.linkingtahoe.com website to include information on existing transportation options
- T-6 **Intelligent Transportation Systems**
- Maximize efficiency of the existing roadway network through the use of technology
 - Encourage the use of Intelligent Transportation Systems (ITS) consistent with the *Lake Tahoe ITS Architecture and Strategic Plan*.
 - Coordinate with EDCTC, TMA's, NDOT, Caltrans, and local jurisdictions regarding traveler information, adaptive roadway management, and emergency planning between Sacramento and South Lake Tahoe, through participation on SP & R grant project team and other relevant efforts.
 - Continue evaluation and gaining endorsement of a transportation trip planning platform to coordinate and increase awareness of inter-regional and intra-regional travel options and pilot a regional application with a recreation focus.
 - Provide recommendations and coordinate with State DOTs and local jurisdictions regarding traffic signalization improvements Region-wide.
- T-7 **Aviation/Rail/Freight Planning**

- Coordinate with Caltrans Division of Aeronautics and CSLT on Lake Tahoe Airport ground transportation access, resiliency and reliability planning, and the Lake Tahoe Airport Master Plan
- Encourage connections to Lake Tahoe in State Rail Plans in California and Nevada
- Coordinate with State Freight Plans and associated freight programs

T-8

Safety Planning

- Continue to test and refine the Safety Strategy Evaluation Tool
- Support local agency grant applications for safety projects identified in the Safety Strategy
- Support implementation of recommended best practices for safety data collection and reporting
- Gain agreement with regional implementing agencies on project design volumes and best practices for the design of safety improvements.

Total:	\$497,568	Total:	\$497,568

**Toll Credits are displayed for tracking purposes and are not a form of cash or revenue.

WORK ELEMENT 105: TRANSPORTATION DATA MANAGEMENT AND FORECASTING

PURPOSE

To administer the regional transportation data collection and modeling efforts of TRPA; to collect the necessary transportation, demographic, and land use information to support transportation planning; to analyze different planning scenarios and impacts of regional land use and transportation proposals; to support data requests from staff, partners, and the general public; to support the refinement of transportation measures that support regional goals; to provide the results of annual monitoring to the public and partners; to coordinate data collection among TRPA, state DOTs, and local agencies to support various data needs.

DISCUSSION

The Lake Tahoe Region continues to develop a centralized regional information website www.laketahoeinfo.org that provides a transparent platform for coordinating and disseminating regional data, project-level details, and information on the transportation performance-based planning framework. Transportation monitoring data is easily accessible on the Transportation Monitoring Dashboard (<https://transportation.laketahoeinfo.org/MeasuresDashboard/Index>). Another valuable transportation planning and programming tool is the Transportation Tracker (<https://transportation.laketahoeinfo.org/>) that provides project level funding and performance data that supports the RTP, FTIP and other key transportation planning efforts.

TRPA is responsible for the collection, analysis, and dissemination of transportation data to support the regional transportation planning process. In addition to supporting data needs for recent performance-based planning requirements discussed in Work Element 106, a critical role is travel demand forecasting. Currently TRPA utilizes its travel demand model package (TransCAD) to assess the effect of proposed land use and transportation proposals on various aspects of the region. An on-going transportation data collection program is in place and provides data on levels of use of the system, vehicle delay, and travel mode share. Other data collection, consistent with TRPA’s annual transportation data collection program, includes regional travel patterns, bicycle and pedestrian counts, transit performance, and traffic counts at identified locations. Purchased data sets are also an efficient tool to supply difficult to obtain data for analysis. TRPA has utilized the latest data to update primary inputs to the travel demand model to provide the base and forecast analysis for the 2020 RTP/SCS. TRPA convenes a Model Working Group to provide a venue to discuss model updates, new techniques and data availability among various stakeholders and technical users of TRPA’s model data.

PREVIOUS WORK

- Maintained Transportation Monitoring Dashboard to include new sources to display up to date transportation data.
- Initiated updates to the travel demand model including new data sources, and functionality
- Convened Model Working Group to share 2020 RTP/SCS model updates and assumptions, including longer term model improvements
- Analysis using new Streetlight Data package

PRODUCTS

COMPLETION DATE

P-1	Publish transportation monitoring data to LakeTahoeinfo.org	Quarterly
P-2	Final Forecast Scenarios for 2020 RTP/SCS	August 2020

TASKS

- T-1 **Data Management**
 - Manage and make available various transportation data sources utilized by TRPA
 - Develop and manage monitoring programs and data collection through LT Info

- T-2 **Performance Measure Data Collection**
 - Coordinate data from local jurisdictions, transit operators, and state DOTs in response to established performance measure targets
 - Coordinate bicycle/pedestrian monitoring data and reporting in accordance with established monitoring protocol
 - Coordinate transit monitoring data and reporting in accordance with established transit monitoring protocol and Transit Productivity Improvement Program (TPIP)

- T-3 **Air Quality**
 - Conduct necessary air quality technical analysis, and model outputs to support RTP and FTIP

- T-5 **Modeling**
 - Support Model Working Group
 - Refine project scale forecasting capabilities
 - Maintain travel demand model as necessary for monitoring and 2020 RTP/SCS including data, functionality and new tools
 - Develop and refine modeling scenarios for 2020 RTP
 - Continue to utilize Streetlight Data package to improve analysis capabilities

WORK ELEMENT 106: PROJECT TRACKING AND FINANCIAL MANAGEMENT

PURPOSE

To support the selection of transportation projects for state and federal funding; to document funded projects in the Federal Transportation Improvement Program (FTIP); to support project implementation through identification of available state and federal funds; to provide workshops, training, technical assistance, and information to assist local partners with timely implementation of transportation projects in Lake Tahoe; to distribute and program various federal and state funding sources; to establish a project tracking system to ensure the appropriate funding is available for timely completion of transportation projects.

DESCRIPTION

TRPA, as the MPO is required to adopt and maintain a Transportation Improvement Program intended to coordinate and track federal funds used for transportation projects. As a core MPO planning function, staff will continue maintaining the current 2019 FTIP through administrative modifications and amendments to maintain required financial constraint and accountability. The development of the new 2021 FTIP is underway with a targeted adoption date of December 2020.

TRPA is responsible for project selection and regional distribution of various federal and state funding sources. TRPA administers a Regional Grant Program to conduct project selection for multiple Federal and State funding programs to ensure consistency with regional goals and the RTP/SCS. As funding is awarded to projects in the Lake Tahoe Region it requires project programming, monitoring and tracking to ensure the funds are used in a timely manner. The FAST Act increased the amount of funding allocated by various programs to Lake Tahoe. This increase of funding has required additional resources for TRPA's programming function along with other related activities.

In addition to the FTIP administration TRPA, as the Regional Transportation Planning Agency (RTPA) in California, is required to adopt and maintain a Regional Transportation Improvement Program (RTIP) to track state transportation funding specifically. The RTIP is updated every two years and was last updated in early 2020.

In order to provide public and partner access transparency, the Transportation Project Tracker (transportation.laketahoeinfo.org) displays real-time project tracking and information. The tracker involves significant coordination with local implementation partners and also serves as the transportation project database for both the RTP and FTIP. The Tracker also includes a linkage to TRPA's Performance-Based Planning program (see Work Element 107).

PREVIOUS WORK

- Maintenance of the 2019 FTIP
- Maintenance of the 2018 RTIP
- Adoption of the 2020 RTIP

WORK ELEMENT 107: PERFORMANCE-BASED PLANNING

PURPOSE

To enhance and support TRPA's performance-based planning program; to continue a performance-based planning framework that integrates federal, state and regional requirements; to refine performance measure goals and targets for the transportation system and planning program based on federal, state, and regional requirements for the required Safety (PM1), Pavement and Bridge (PM2), System Performance, Freight and applicable CMAQ (PM3) measures; to refine and monitor RTP performance measures; to enhance linkages between the planning process and project implementation to evaluate progress toward established regional goals; refine the Congestion Management Process as necessary to support regional transportation goals in accordance with federal planning requirements.

DISCUSSION

Performance-based planning defines current performance levels, establishes target performance levels, and identifies strategies for achieving these targets. This approach was strengthened with the passing of MAP-21 and continued with the FAST Act, which requires performance-based plans and programs that establish the foundation and core elements of transportation planning.

In the FAST Act, the Lake Tahoe Region was recognized as a Transportation Management Area (TMA) with a total population of 210,000. Additional TMA requirements include the establishment of a Congestion Management Process (CMP) that evaluates strategies to reduce congestion that do not increase roadway capacity. This CMP requirement aligns well with TRPA's existing mandate to reduce the dependency on the private automobile and the future CMP for TMPO will contribute toward the accomplishment of each DOT targets for the portion of the planning area within each State.

The Lake Tahoe Region continues to enhance the practice of evaluating project effectiveness and monitoring progress toward regional and local goals. This process is intended to provide useful information for decision-making, while fostering program alignment across multiple stakeholders. TRPA's performance-based transportation planning framework integrates Federal performance-based planning requirements outlined in MAP-21 and the FAST Act, TRPA threshold and Regional Plan performance measures, and various state performance metrics.

Performance Management Framework is built into the TMPO work plan including grant project selection outlined in WE106, the core of RTP Implementation in WE104 and the previous work on the Safety Plan Strategy that shapes the planning and programming of projects to support each states PM1 Safety Targets.

PREVIOUS WORK

- Established and provided reporting on performance metrics for Federal Transportation Performance Measures PM-1, PM-2 and PM-3
- Included performance-based planning framework into the Regional Grant Program
- Drafted CMP Documentation

PRODUCTS	COMPLETION DATE
P-1 Maintained Performance-Based Planning Framework	On-going
P-2 2021 PM1 Safety Target set with Caltrans and Nevada DOT	February 2021

- T-1 **Performance-Based Planning**
- Continue Refine the Region’s contemporary performance-based planning framework
 - Participate in federal workshops on performance-based planning
 - Refine the tools within the performance management framework to ensure the project evaluation processes for the regional grant program remains adaptable to regional goals
 - Revise Performance-Based Planning as Federal Performance Measures and Targets as necessary based on the annual State target setting process and deadlines
 - Stakeholder coordination to improve information sharing that supports the performance system
 - Coordinate the performance management process, data gathering, funding programming, project sequencing, etc. with the Transportation Coordination working group
- Ensure timely transmittal of data to Caltrans, NDOT, FHWA and FTA
- T-2 **Congestion Management Process**
- Track and respond to federal and state sustainability planning guidance, including system resiliency and reliability
 - Monitor and refine the CMP as necessary

WORK ELEMENT 108: SUSTAINABLE COMMUNITIES PLANNING

To further the region's 2017 Linking Tahoe: Regional Transportation Plan/Sustainable Communities Strategy; to contribute to the State's GHG reduction targets through integration of land use and transportation planning; to develop corridor management plans; to collect and analyze necessary corridor level data; to identify roles and responsibilities of multiple partnering agencies; to incorporate public input and needs into decision making; to consider impacts on the constrained transportation system due to increased interregional tourism and visitor traffic; to evaluate and develop project VMT reduction tools and strategies that support the RTP/SCS.

DISCUSSION

TRPA, along with 12 other agencies, has committed to a partner-based planning process that is conducted at a corridor scale. This comprehensive planning approach has shown success on the recreation heavy East and West shores of Lake Tahoe. The Corridor planning approach is lead by a entity with a vested interest in the corridor and typically utilizes a steering committee of other principal entities to drive the process. For purposes of corridor planning, the Region has been divided into six internal corridors and two entry/exit corridors ([Link](#)). The corridor planning approach is an organizing framework to support regional transportation policy as well as align and accelerate implementation of various entity's policy documents. For TRPA corridor planning supports the RTP/SCS at a sub-regional scale. This planning approach requires multi agency collaboration, commitments, and resources. The TTD developed the 2017 Linking Tahoe: Corridor Connection Plan ([Link](#)), which collected and synthesized large amounts of data for all internal and external corridors. This document provides a foundation for more detailed corridor management plans. Current corridor management plans underway are the SR89 Emerald Bay Recreation Corridor and the US 50 South Shore (Main Street Management Plan). The US50 East Shore Corridor (not funded by this work element), and the SR89/28 Corridor (Resort Triangle Transportation Plan) including connections to Truckee will be completed later in FY 21.

This work element, funded by SB1 Sustainable Communities Formula Funds, highlights the next phase of corridor planning and VMT/GHG reduction activities. The corridor planning effort will be a multi-year program that will be captured in this and subsequent OWPs. Additional tasks supporting the evaluation and development of VMT/GHG reduction strategies and tools to support state requirements will also be included in the work element.

TRPA is working with Placer County to further the RTP/SCS by creating a common set of methodologies, metrics and tools for project impact analysis to better integrate transportation, housing and land use planning to support local and regional Vehicle Miles Traveled (VMT) and greenhouse gas (GHG) reduction goals and to ultimately achieve the State's GHG reduction target in AB32. This VMT/GHG reduction analytical framework will be adapted to other jurisdictions in Lake Tahoe using unique data to determine the most effective strategies for VMT and GHG reduction. TRPA and local jurisdictions will be responsible for data collection as necessary to support VMT/GHG analysis and evaluation going forward. As a follow-up task, TRPA will investigate necessary travel demand model updates and other tools to support the VMT/GHG evaluation and forecasting process.

PREVIOUS WORK

- SR 89 – Emerald Bay Recreation Corridor Management Plan:
 - Adopted Project Charter
 - Draft Corridor Alternative Scenarios
 - Draft SR89/Emerald Bay Corridor Management Plan

Lake Tahoe Transportation Planning - Fiscal Year 2019/2020

- US 50 South Shore - Main Street Management Plan:
 - Established Steering committees and public outreach strategy
 - Secured consultant and initiated contracted support activities
 - Developed and analyzed two alternatives for street design
 - Selected preferred alternative for street design
- VMT/GHG Evaluation Tools:
 - Consultant work initiated (May 2020)

WORK ELEMENT 108.3 (FY 19/20 – RMRA)

PRODUCTS	COMPLETION DATE
P-1 Final Main Street Management Plan	November 2020

Non-Federal Subtotal:	486,678
GRAND TOTAL:	\$1,843,574

Funding Source Descriptions

FHWA & FTA Planning funds (PL & 5303) California and Nevada (CA and NV)- Current fiscal year allocation of Federal transportation planning (PL & FTA 5303) funds to support metropolitan planning and may be used for transit or highway planning activities. These funds are administered by Caltrans on behalf of Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) via a Consolidated Planning Grant Agreement.

Toll Credits - Toll credits are not revenue or cash, but rather a substitute for local match required by CPG funds. Toll credits provided by the State of California are being utilized as a match for federal FHWA PL and FTA 5303 funds. The FHWA PL and FTA 5303 amounts shown in the Budget Revenue Summary Sheet represent 100% of the total federal participation cost, therefore toll credits are not included in the total revenue amount. Toll credits can be applied to the current year allocation of California CPG funds, and any carryover balance. These are tracked separately and can be found on Table 7.

PL & 5303 Carryover - Carryover balance of funding from prior PL and 5303 allocations. (See above)

CA-RMRA - The California Road Maintenance and Rehabilitation Account (RMRA) was established by Senate Bill 1 in 2017. These funds are part of the Sustainable Transportation Planning formula grants that is aimed at supporting state GHG/VMT reduction goals.

TRPA General Funds – This funding comes directly from the TRPA general budget and is used as a non-federal match to leverage federal planning funds.

TDA (Planning and Administration) – This State of California funding is provided through the California Transportation Development Act (TDA) and can be used for administration of the TDA program, and transportation planning activities.

TAHOE METROPOLITAN PLANNING ORGANIZATION
TMPO RESOLUTION NO. 2020-__

ADOPTION OF THE TMPO 2021 TRANSPORTATION OVERALL WORK PROGRAM

WHEREAS, the Tahoe Metropolitan Planning Organization (TMPO) has been designated by the Governors of California and Nevada for the preparation of transportation plans and programs under Title 23, CFR 450; and

WHEREAS, each MPO is required to adopt an Overall Work Program (OWP), also referred to as the Unified Planning Work Program (UPWP), describing the planning priorities facing the Region and the planning activities anticipated for the Region over the next year; and

WHEREAS, staff have prepared an OWP that describes the anticipated revenues and expenditures and planning activities and products for transportation and air quality planning purposes over the next year; and

WHEREAS, the Federal Highway Administration, the Federal Transit Administration, Caltrans and the Nevada Department of Transportation have reviewed and commented upon a draft version of the 2021 OWP; and

WHEREAS, the Tahoe Transportation Commission has conducted public meetings at which the 2021 OWP has been an officially noticed item of discussion; and

WHEREAS, staff is requesting that the TMPO Governing Board adopt a final 2021 OWP for submittal to state and federal agencies for approval, and authorize staff to take actions necessary for this approval; and

WHEREAS, the TMPO certifies that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of the federal statutes listed on the MPO Planning Process Certification and Federal Transit Administration certifications included in the 2021 OWP document.

NOW, THEREFORE, BE IT RESOLVED that the Governing Board of the Tahoe Metropolitan Planning Organization adopts this resolution approving the 2021 Tahoe Basin Transportation Overall Work Program.

PASSED AND ADOPTED by the Governing Board of the Tahoe Metropolitan Planning Organization at its regular meeting held on May 27, 2020, by the following vote:

Ayes:

Absent:

William Yeates, Chair
TMPO Governing Board

FY 2020/21 FHWA Metropolitan Transportation Planning Process Self-Certification

In accordance with 23 CFR part 450, the California Department of Transportation and Tahoe Regional Planning Agency, the designated Metropolitan Planning Organization for the Lake Tahoe urbanized area hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being carried out in accordance with all applicable requirements including:

- (1) 23 U.S.C. 134, 49 U.S.C. 5303, and subpart C of 23 CFR part 450;
- (2) In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the FAST Act (Pub. L. 114-94) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Debarment and Suspension Certification for Fiscal Year 2020/21

As required by U.S. DOT regulations on government-wide Debarment and Suspension (Nonprocurement), 49 CFR 29.100:

- 1) The Applicant certifies, to the best of its knowledge and belief, that it and its contractors, subcontractors and subrecipients:
 - a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - b) Have not, within the three (3) year period preceding this certification, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) transaction or contract under a public transaction, violation of Federal or state antitrust statutes, or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, state, or local) with commission of any of the offenses listed in subparagraph (1)(b) of this certification; and
 - d) Have not, within the three (3) year period preceding this certification, had one or more public transactions (Federal, state, and local) terminated for cause or default.
- 2) The Applicant also certifies that, if Applicant later becomes aware of any information contradicting the statements of paragraph (1) above, it will promptly provide that information to the State.
- 3) If the Applicant is unable to certify to all statements in paragraphs (1) and (2) of this certification, through those means available to Applicant, including the General Services Administration's ***Excluded Parties List System (EPLS)***, Applicant shall indicate so in its applications, or in the transmittal letter or message accompanying its annual certifications and assurances, and will provide a written explanation to the State.

FEDERAL FISCAL YEAR 2020 FTA CERTIFICATIONS AND ASSURANCES SIGNATURE PAGE
(Required of all Applicants for FTA assistance and all FTA Grantees with an active capital or formula project)

AFFIRMATION OF APPLICANT

Name of Applicant: Tahoe Metropolitan Planning Organization

Name and Relationship of Authorized Representative: Joanne S. Marchetta, Executive Director

BY SIGNING BELOW, on behalf of the Applicant, I declare that the Applicant has duly authorized me to make these certifications and assurances and bind its compliance. Thus, it agrees to comply with all federal laws, regulations, and requirements, follow applicable Federal guidance, and comply with the certifications and assurances as indicated on the foregoing page applicable to each application its Authorized Representative makes to the Federal Transit Administration (FTA) in Federal Fiscal Year 2021, irrespective of whether the individual acted on his or her Applicant's behalf continues to represent it.

FTA intends that the Certifications and Assurances the Applicant selects on the other side of this document should apply to each Award for which it now seeks, or may later seek federal assistance to be awarded by FTA during federal fiscal year 2021.

The Applicant affirms the truthfulness and accuracy of the Certifications and Assurances it has selected in the statements submitted with this document and any other submission made to FTA, and acknowledges that the Program Fraud Civil Remedies Act of 1986, 31 U.S.C. § 3801 et seq., and implementing U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR part 31, apply to any certification, assurance or submission made to FTA. The criminal provisions of 18 U.S.C. § 1001 apply to any certification, assurance, or submission made in connection with a federal public transportation program authorized by 49 U.S.C. chapter 53 or any other statute.

In signing this document, I declare under penalties of perjury that the foregoing Certifications and Assurances, and any other statements made by me on behalf of the Applicant are true and accurate.

Executive Summary of the FY 2021 OWP

Lake Tahoe Transportation Planning

Overall Work Program - FY 2020/21

May 2020

Executive Summary

Introduction

The Overall Work Program (OWP) defines the continuing, comprehensive, and coordinated regional transportation planning process for the Lake Tahoe Basin. It establishes transportation, air quality, and other regional planning objectives and associated funding for Fiscal Year 2020/21. The OWP also serves as a management tool for the Tahoe Regional Planning Agency (TRPA), serving as the Tahoe Metropolitan Planning Organization (TMPO), through the identification of work elements containing tasks and products to be provided during the year, including Federal and State mandated transportation planning requirements and other regional transportation planning activities.

Work Elements

The OWP is organized by *functional areas* and **work elements** combining similar activities, and products in one place. Below is a list of the work elements with a brief description of each and budget which includes staff time and contracts:

Outreach and Administration

WE 101 – Overall Work Program Administration - \$174,976

This work element contains the administrative activities to support the Lake Tahoe transportation program, including budgets, work program development and tracking, and professional staff development.

WE 102 – Transportation Development Act - \$49,505

The Transportation Development Act (TDA) is a major source of regional transit operating funding from California. This work element outlines the administration and management of the TDA funding coming into the Lake Tahoe Region including an audit of the administration.

WE 103 – Public Outreach and Coordination - \$54,000

Public outreach and collaboration with partners are key to TRPA's success. This work element includes activities to support a transparent, educational, and effective regional transportation planning process as the Tahoe Metropolitan Planning Organization. The element also includes specific public outreach and agency collaboration efforts, TMPO/TTC Board support, tribal government consultation, staff professional development, and environmental justice activities.

Regional Intermodal Planning

WE 104 – Regional Intermodal Planning - \$207,188

This work element contains a variety of transportation planning activities that include the development of regional transportation policy documents including, 2020 Regional Transportation Plan, updates to the Active Transportation Plan, Transit plans, etc... This element also includes the execution of programs including trip planning apps, transportation demand management, transit planning support including updates to Transit Development Plans, and other travel mode planning activities to implement regional transportation policy.

WE 105 – Transportation Data Management and Forecasting - \$355,639

This work element includes regional transportation data collection and modeling efforts to support transportation data needs of staff, partners, and the general public. This element also includes the update and maintenance of the TRPA travel demand model and various

transportation data sets for the next RTP and to address TRPA, Federal, and State requirements. These activities are coordinated by the TRPA Research and Analysis Program.

Tracking and Financial Management

WE 106 – Project Tracking and Financial Management - \$163,834

This work element supports the financial management activities related to federal and state funded transportation projects in the Region. This element includes the required administration of transportation funding allocated by the TMPO, and updates to the Federal Transportation Improvement Program (FTIP) and Regional Transportation Improvement Program (RTIP).

Regional Coordination

WE 107 –Performance-Based Planning - \$92,898

This work element supports the continual development of TMPO’s performance-based planning framework that directly supports monitoring the performance of the Regional Transportation Plan and Sustainable Communities Strategy. This element also includes integration with TRPA’s performance management system, including the development, tracking, and reporting on TRPA, State, and Federal transportation performance measures, and the development of a federally-required Congestion Management Process.

WE 108.3 –Sustainable Communities Planning - \$139,735

This sub work element continues corridor planning activities to be undertaken with FY 19/20 SB1 - Sustainable Communities Formula Grant funding. Activities include the release of a draft and finalization of the SR89/ Emerald Bay Recreation Corridor Plan, Final US 50 Stateline Main Street Management Plan, and development of a set of tools for project evaluation and impact analysis to support the RTP/SCS.

WE 108.4 –Sustainable Communities Planning - \$181,585

This sub work element highlights the next phase of corridor planning activities to be undertaken with FY 20/21 SB1 - Sustainable Communities Formula Grant funding. Activities include the finalization of the project evaluation and impact tool along with continued updates to the travel demand model and forecasting tools.
